

Proceedings

Seventh Dr. George Bachman Memorial Conference

Indian Journal of Mathematics

Volume 58, 2016 (Supplement)

Published : 2019

Contents

A note on Jacobson-Rickart-Kadison theorem for locally C^* -algebras

Alexander A. Katz

On extending supermodular set functions

George Bachman (posthumously) and Charles Traina

Functional calculus on algebras of operators generated by a self-adjoint operator in Pontryagin space Π_1 . II. Exceptional case of the model of type 1

Vladimir I. Chilin and Sofya S. Masharipova

An inclusion theorem for weighted mean method for double sequences in ultrametric fields

P. N. Natarajan

A theorem on summability factors for the Natarajan method in ultrametric fields

P. N. Natarajan
