

Bulletin of the Allahabad Mathematical Society

TENTATIVE CONTENTS VOLUME 35, (2020)

Hüseyin Budak, Ebru Pehlivan and Pınar Kösem

On extensions of generalized fractional Hermite-Hadamard inequalities

Debasis Sharma and Sanjaya Kumar Parhi

Local convergence of Chebyshev-Halley type methods under Hölder continuity condition

Yue Sui and Junchao Wei

Some studies on generalized inverses of matrices

James F. Peters

Ribbon complexes & their approximate descriptive proximities.
ribbon & vortex nerves, Betti numbers and planar divisions

George A. Anastassiou

Conformable fractional approximation of stochastic processes
