

Indian Journal of Mathematics

Dharma Prakash Gupta Memorial Volume

TENTATIVE CONTENTS

VOLUME 60, No. 2, (2018)

**Utkal Keshari Dutta, Sushree Sangeeta Pradhan
and Prasanta Kumar Ray**

Regularized products over balancing and Lucas-balancing numbers

Ashwini Kulkarni and Sarita Thaka

Integrability analysis of generalized modified Emden type equation

H. Kiskinov and A. Zahariev

On abstract integral equations with two nonlinear Volterra type operators in metric spaces

Rajib Mandal

On some uniqueness results for certain type of differential-difference polynomials

G. S. Srivastava and Chhaya Singhal

On the q -order and q -type of analytic matrix functions in complete Reinhardt domain

Vladimir Samodivkin

Minimum Roman dominating functions: adjacency

Talal Ali Al-Hawary

Matroid's filterbase
