### TENTATIVE CONTENTS

#### VOLUME 60, No. 3, (2018)

**Maria Thomas and Sangeetha George K.**

Rotational speed modulation in Rayleigh-Bénard convection in a couple stress fluid layer with non-classical heat conduction law

**Ahmed A. Hamoud and Kirtiwant P. Ghadle**

Existence and uniqueness of solutions for fractional mixed Volterra-Fredholm integro-differential equations

**Mradul Veer Singh, M. L. Mittal and B. E. Rhoades**

Approximation of functions belonging to a generalized weighted Lipschitz class and their conjugates using linear operators

**M. Kammuji, Z. K. Eshkuvatov and Z. Muminov**

Approximate solution for linear integro-differential equations of order one by Legendre polynomials

**Renukadevi, S. Dyavanal and Rajalaxmi V. Desai**

Uniqueness of difference polynomials of meromorphic functions with weighted sharing

**Sourav Kanti Patra and Sukrit Chakraborty**

$C$ -image partition regularity near zero
