

Indian Journal of Mathematics

TENTATIVE CONTENTS VOLUME 61, No. 1, (2019)

Ravindra K. Bisht

Generalized nonlinear contractions and discontinuity at fixed points

Job Mathai and N. Sabu

Asymptotic analysis of dynamic problem for shallow shells with variable thickness

Vaijanath L. Chinchane and Deepak B. Pachpatte

A note on fractional integral inequality involving convex functions using Saigo fractional integral

Absos Ali Shaikh, Haradhan Kundu and Jayashree Sen

Curvature properties of the Vaidya metric

Ana Cecilia García Lomelí, Santos Hernández Hernández and Florian Luca

Pillai's problem with the Padovan and Tribonacci sequences

Bijan Kumar Patel and Prasanta Kumar Ray

On the properties of Horadam quaternions

V. P. Ramesh and R. Thatchayini

$\left[\frac{\phi(p-1)}{3}\right]$ generators of $(\mathbb{Z}/p\mathbb{Z})^*$ are generators of $(\mathbb{Z}/p^\ell\mathbb{Z})^*$ for every $\ell \geq 2$

Hemant Kumar Nashine, Reza Arab and Ravi P. Agarwal

Solution of a class of quadratic integro-differential equations via new measures of noncompactness

Renukadevi S. Dyavanal, Madhura M. Mathai and

Ashwini M. Hattikal

Unicity theorems of a linear difference polynomial of entire and meromorphic functions

Monimala Nej and A. Satyanarayana Reddy

Binary strings of length N with X zeros and longest K -runs of zeros
