

Indian Journal of Mathematics

TENTATIVE CONTENTS VOLUME 62, No. 1, (2020)

Rajendra Pant and Rahul Shukla

Some new fixed point results for nonexpansive type mappings in Banach and Hilbert spaces

Naohiro Fukuda, Tamotu Kinoshita and Toshio Suzuki

Haar and Shannon wavelet expansions with explicit coefficients of the Takagi function

Negar Bakhshi Sadabadi and Robab Hambarani Haghi

Large Pata type contraction with an application to FFDI

K. R. Vasuki, T. Anusha and E. N. Bhuvan

Level 28 analogues of Ramanujan type series for $\frac{1}{\pi}$

Musharraf Ali, Mohd Ghayasuddin and Nabiullah Khan

Certain new extension of Whittaker function and its properties

Chahrazade Bakkari, Mohamed Es-Saidi and Najib Mahdou

Fusible-like conditions in amalgamated duplication of a ring along an ideal

Nikolay I. Dubrovi

Topological linear spaces of formal linear sums and continuous linear operators
