## TENTATIVE CONTENTS VOLUME 62, No. 2, (2020)

**Atanaska Georgieva and Snezhana Hristova**

Lipschitz stability of delay neural networks with non-instantaneous impulses

**Hassan Al-Zoubi, Hamza Alzaareer, Tareq Hamadneh and  
Mohammad Al Rawajbeh**

Tubes of coordinate finite type Gauss map in the Euclidean 3-space

**Marko Kostić, Yogesh J. Bagul and Christophe Chesneau**

Generalized inequalities for ratio functions of trigonometric and hyperbolic functions

**Sa'adatul Fitri, Marjono, Derek K. Thomas and  
Ratno Bagus Edy Wibowo**

Some Coefficient Inequalities for Bazilevič Functions in a Sector

**S. Leulmi and A. Ayadi**

The application of the homotopy analysis method for solving the two phase inverse Stefan problem with optimisation

**Sayantana Panja, Kushal Roy and Mantu Saha**

Weak interpolative type contractive mappings on  $b$ -metric spaces and their applications

**Tariq A. Aljaaidi and Deepak B. Pachpatte**

Some Grüss-type inequalities Via  $\Psi$ -Riemann-Liouville fractional integral

---
